What makes SAFE different?

Flexibility: SAFE lets you educate your children in a way that suits your family's needs while staying within South Carolina law. We make sure you're compliant and support a variety of educational styles and philosophies.

Limited paperwork: All homeschooling requires record keeping. SAFE provides guidance for government requirements while making sure you only need to submit the essentials.

Inexpensive: Our heritage as a volunteer-run organization allows us to keep costs low. Membership is \$25 per elementary / middle school student, and \$50 per high school student, with a maximum of \$155 per family.
